**Re: Jane Moody**

To Whom It May Concern:

I have had the opportunity of consulting Jane Moody and referring a number of patients to her. I have been impressed by Jane's professional approach, her compassion, and her skills in working with patients with difficult health problems. Some patients with intractable chronic problems have been significantly helped by working with Jane, who has training in a variety of healing techniques. I have no hesitation in recommending her. It is my intention to continue to refer patients who I believe can be helped by Jane's unique approach.

Yours sincerely,

Roy A. Fox, BSc., M.D., M.E.S., FRCPC
