Re: Jane Moody

As a consumer of various counseling services over the past ten years, I have seen an interesting difference in Jane's style of practice. She has acute observation skills that rival a polygraph and many techniques so she can match the method to the client. Jane is also gentle and kind.

My favorite part of Jane's treatment is the hands-on ancient Hebrew healing which brings up, then helps to heal various emotions. Sometimes it causes a tumultuous reaction, sometimes a physiological purge, sometimes a clean peace. After the tumult comes revelation and sudden understanding of one's repeating patterns as you watch them dissolve. And the peace is just ... well-great.

As words do not do this fascinating healing method justice, I have written a poem.

*Amaze yourself, come and see Jane,
A woman who takes away pain.
She'll touch on your soul
And mend the big hole
So you won't have to do it again.*

Sincerely,

Heather MacAuley
